TO:

President Joe Carchio

Members of the Board of Trustees

FROM:

Michael G. Hearst, District Manager

RE:

Fiscal Year 2015-16 Budget Transmittal

I am pleased to submit the FY 2015-16 Annual Budget for the Orange County Mosquito and Vector Control District. The FY 2015-16 Budget fully funds District operations in accordance with the District's Mission Statement and Values:

The mission of the Orange County Mosquito and Vector Control District is to provide the citizens of Orange County with the highest level of protection from vectors and vector-borne diseases. As per its mission statement and values in achieving its mission, the Orange County Mosquito and Vector Control District shall:

- Be proactive in response to current and future vector threats.
- Respond effectively and courteously to the needs of the public.
- Inform and educate the public about the shared responsibility of vector control.
- Utilize the most effective and safest methods available for the control of
- Provide vector control services in the most cost-effective manner.

Throughout its 68 year existence, the District has done well to achieve its mission. Although this may be the case, conditions are changing quickly and the District needs to be prepared to face many existing and upcoming challenges. The never-ending drought, the lack of a "real" winter season, prevalence of year-round mosquito breeding in underground storm drains, and the threat of invasive mosquito species has created an environment in which, unless modifications are made, will make the District's ability to protect the public increasingly difficult. Many of these challenges and their effects became exceedingly evident in 2014 as Orange County became the epicenter of West Nile virus (WNV) activity. As a result of the epidemic 2014 WNV outbreak that resulted in 282 human infections and seven deaths in the OC alone, the District has had to conduct an in-depth assessment of its current operations to identify both its strengths and weaknesses when responding to vector associated epidemics.

In an effort to improve its delivery of services to the residents of Orange County at the high quality that is expected and deserved, this budget includes several program enhancements. These program enrichments are meant to address the recognized deficiencies as well as improve the identified operational strengths. More importantly, the proposed budget is forward thinking and addresses future concerns. The District's goal is to be a proactive organization that gets ahead of potential issues and minimizes the effect on residents of public health risks associated with vectors and vector-borne illnesses.

Listed below is an overview of the specific financial information in the 2015-16 Budget:

Revenues:

Total projected Operating Fund revenue for FY 2015-16 is \$11,839,500. The District's largest sources of revenue are property tax and benefit assessments. Together, these account for \$11.5 million (97%) of the total FY 2015-16 revenue.

Ad Valorem Property Tax: For FY 2015-16, a conservative 1.5% increase is estimated county-wide for the ad valorem property tax revenue, resulting in projected revenues of \$5.0 million.

Assessment District No. 1: This assessment provides funding for vector control and disease surveillance services and related capital, operational and administrative expenses. The rates of the annual assessments levied in connection with Assessment District No. 1 have been unchanged since 1996 (\$1.92 per Benefit Unit). For FY 2015-16, Assessment District No. 1 is anticipated to yield \$1.5 million.

Assessment District No. 2: Also called the Mosquito, Fire Ant and Disease Control Assessment, this assessment established in 2004 following an assessment ballot proceeding pursuant to the requirements of Article XIIID of the California Constitution ("The Taxpayer's Right to Vote on Taxes Act") and the Health and Safety Code. The initial maximum assessment rate balloted and established in FY 2004-05 was \$5.42 per Single Family Equivalent unit (SFE). The authority granted by the ballot proceedings includes an annual adjustment in the maximum authorized assessment rate equal to the annual change in the Consumer Price Index for the Los Angeles area, not to exceed 3%. However, since it was initially approved by voters, the District has lowered the assessment six times. For FY 2014-15, the Board approved the levy at \$5.02 per SFE which was \$1.88 less than the maximum authorized rate of \$6.90 per SFE. The maximum allowable assessment rate for FY 2015-16 will be \$6.89.

| FY | CPI History | Maximum Authorized Assessment Rate District #2 | Actual/ Proposed Assessment Rate Levied District #2 |
|---------|----------------|--|---|
| 2004-05 | N/A | \$5.42 | \$5.42 |
| 2005-06 | 3.66% | \$5.58 | \$5.30 |
| 2006-07 | 5.42% | \$5.75 | \$5.25 |
| 2007-08 | 3.20% | \$5.92 | \$5.14 |
| 2008-09 | 3.92% | \$6.10 | \$5.10 |
| 2009-10 | -0.09% | \$6.28 | \$5.06 |
| 2010-11 | 1.76% | \$6.46 | \$5.02 |
| 2011-12 | 1.80% | \$6.58 | \$5.02 |
| 2012-13 | 2.09% | \$6.72 | \$5.02 |

| FY | CPI | Maximum Authorized Assessment Rate | Actual/ Proposed Assessment Rate Levied |
|---------|---------|------------------------------------|---|
| Fĭ | History | District #2 | District #2 |
| 2013-14 | 1.95% | \$6.85 | \$5.02 |
| 2014-15 | 0.77% | \$6.90 | \$5.02 |
| 2015-16 | -0.05% | \$6.89 | \$6.02 |

Assessment District No. 2 estimated revenues for FY 2015-16 have been budgeted at \$4.9 million and assume a levy rate of \$6.02 per SFE. The proposed increase is \$.87 less than the maximum allowable rate. Staff is recommending that the rate be increased from FY 2014-15 to allow for enhancements to various areas of District operations. After the record 2014 WNV year, several improvements to the current mosquito and disease control program have been identified. The public hearing and vote to approve the rate for FY 2015-16 shall be at the June 2015 Board of Trustees meeting. It should be noted that if the Board of Trustees decide to not increase the assessment rate, modification will need to be made to the proposed FY 2015-16 expenditures.

Expenditures:

Operating Expenditures

The proposed operating expenditure budget, excluding transfers to other funds, for FY 2015-16 is \$10,757,080. This is approximately a 2.3% increase from estimated expenditures for FY 2014-15. The primary objective when putting together the District's operating budget was to allocate resources in a manner that continues to support the highest level of protection from vectors and vector-borne diseases to the citizens of Orange County. As stated earlier, several areas of District operations were examined and this budget includes several program enhancements.

Personnel

Personnel costs make up 71% of the District's total operating expenditures. The District employs 55 regular full-time employees and approximately 55 seasonal and 10 extra-help staff annually.

The budget includes the addition of three additional full-time positions as well as the addition of 6 extra-help positions. The total cost for the requested personnel additions is \$275,000.

- Vector Control Inspector II Although drought conditions persist in Southern California, mosquito breeding activity has continued even in the winter months. This is especially true in the vast underground storm drain systems throughout the County. The lack of adequate flushing of the storm drains filled with urban runoff has created the perfect breading source for mosquitoes year round. Poor design of older systems and lack of rainfall have contributed to the problem. The addition of an additional Vector Control Inspector II position will allow the District to increase its surveillance and treatment of underground storm drain mosquito breeding.
- Information Technology Analyst The District's reliance on technology has grown significantly over the years to track data, monitor treatments and ensure compliance with State regulatory agencies who monitor the District's use of pesticides. In addition, the District has become increasingly dependent on GIS to track vector activity and response.

The District is in the final stages of implementing its new Field Force Management System. Field staff in both Operations and Scientific and Technical Services will be able to record and capture work in real time out in the field similar to programs used by city code enforcement and building staff. The system was developed to be used with Apple iPad devices. The District has been fortunate to have staff with the expertise necessary to manage its IT needs. As time has progressed and information technology needs have increased it has become necessary to have a dedicated staff person who specializes in IT. The District has and will continue to use a contracted IT support for networking and higher level infrastructure management.

- Administrative Assistant Compliance with State and Federal regulations has created additional administrative burdens for all employers. Existing District staff workload has increased due to the tracking and reporting requirements required by regulations such as the Affordable Care Act and the recently adopted Healthy Workplaces, Healthy Families Act. Temporary staffing has been used to assist but it has become apparent that the need for additional administrative support to ensure compliance with regulations and maintain proper internal procedures will be necessary on an ongoing basis. In addition, the District looks to implement a formal records management program which will make use of the existing electronic records management system. This initiative is to ensure that the District remains compliant with the California Code pertaining to public records rules and guidelines.
- Vector Assistant The use of seasonal staff has been a long standing tradition not only at OCMVCD but also most of the vector control industry. Generally this has been adequate to allow for vector control districts to "staff" up during peak mosquito breeding times of the year. Traditionally this peak season has been May through October. In evaluating the 2014 WNV epidemic, one area of concern that was identified is the increasing length, or lack of, a predefined mosquito season. As previously noted, the drought, the lack of a "real" winter season, and prevalence of year-round mosquito breeding in underground storm drains has created the need for increased year-round mosquito control. It is proposed that a total of 6 seasonal positions be converted to year-round extra help positions. Five of the positions will be assigned to Operations while one will be allotted to Scientific Technical Services to assist with the fish rearing program.

All employees excluding management and administrative confidential staff are represented by the Orange County Mosquito and Vector Control District Employee's Association (OCMVCDEA). The current Memorandum of Understanding (MOU) between the District and OCMVCDEA is set to expire June 30, 2015. Negotiations for a successor MOU will begin in early spring 2015. Given the amount of time between now and the expiration date of the MOU, no potential proposals are incorporated in the proposed budget.

Executive

Discovery Cube of Orange County - At its November 20, 2014 meeting, the Board of Trustees approved an agreement between the District and Discovery Cube Orange County (DCOC) contract for a public education exhibit and teacher training program. The total cost of the agreement is \$1

million of which \$500,000 was payable in FY 2014-15. The remaining \$500,000 will be paid out in two increments of \$250,000 each. The first installment is due in FY 2015-16.

Administrative Services

Property Insurance Appraisal - Additional funds are being requested for a comprehensive property insurance appraisal and supplemental property underwriting data collection services to be conducted. This valuation will assist with developing an insurable values base for equitable distribution of premiums, reliable insurance to value for risk identification, assure accurate coverage for risk quantification, supplemental property exposure data for risk financing and provide proof-of-loss documentation in the event of a loss. Estimated cost for this services is \$10,000.

GASB 45 Valuation – Government Accounting Standards Board (GASB) 45 requires that the District obtain actuarial valuations of its retiree health insurance program not less frequently than once every three years. The last GASB 45 valuation was as of July 1, 2012 making the basis date of the next required valuation July 1, 2015. Estimated cost for this services is \$5,000.

Scientific Technical Services

Vertebrate Pest & Rodenticide Study – This study will determine the incidence rate of salmonella and/or rat bite fever bacteria in our local roof rats. Results will help the District determine the disease risk to homeowners of rat contamination of food, and/or potential transmission of bacteria through a rat bite. The study will also test Orange County birds of prey for rodenticides. This study hopes to show that the type of rodenticide used by the District is not working its way up the food chain to birds of prey. This demonstrates that the District's rat baiting program is not adversely affecting predatory birds and also reinforces our CEQA document by showing that the District's rodenticide usage is low impact to non-target organisms. Estimated cost of this project is \$8.300.

Increased Mosquito and Disease Surveillance - As a result of the significant number of WNV cases in 2014, the District increased the number of mosquito traps throughout the county to locate new and monitor existing sources. WNV testing has also increased as a result of additional sample collection as well as discovery of a number of new neglected swimming pools. Surveillance has also been augmented to conduct surveillance of, and respond to the detection of invasive Aedes mosquitoes and locally acquired human cases of dengue, chikungunya, or other exotic mosquitoborne viral infections potentially transmitted by these mosquitoes. Mosquito species of immediate concern are the day biting, container-breeding Yellow Fever Mosquito (Aedes aegypti) and Asian Tiger Mosquito (Aedes albopictus), both of which recently have been detected and become established in neighboring California counties. A third Aedes invasive species, the Australian Backyard Mosquito (Aedes notoscriptus), has also been found in neighboring counties and is known to spread heartworm in dogs. Estimated cost for heightened mosquito and disease surveillance is an additional \$10,000/year over FY 2014-15. Please note that the District had already increased its surveillance program in FY 2014-15, approximately \$26,000 over FY 2013-14, due to the high WNV infection rate. Staff is recommending that the increased level of surveillance continue and become normal practice in consideration of the threat of invasive Aedes mosquito species.

Capital Outlay

Total capital outlay costs are proposed to be \$437,600 in FY 2015-16 and include both Operating Fund and Facility Improvement Fund expenditures.

Operating Fund: Total operating fund capital outlay costs are proposed to be \$249,100 for FY 2015-16 and include the following items:

- \$10,000 to procure a new performance evaluation software. The District's current software is outdated and no longer supported. In addition, it must be housed in an old network server due to the software being too outdated to run on the District's newer more reliable servers.
- \$20,000 to purchase a new monitoring and calibration system for the District's ultra-low-volume (ULV) sprayers. Because the labels of the pesticides carry specific restrictions on droplet size and application rates, it is critical that the equipment be maintained in good working order, and that the equipment is calibrated frequently to make sure the applications conform to label requirements.
- \$140,000 to replace 5 trucks. The District's current vehicle replacement policy states that vehicles shall be replaced at 10 years or 100,000 miles. The District has been able to extend the life of many of the vehicles beyond the 10 year/100K mile threshold.
- \$10,000 to replace Red Imported Fire Ant program golf cart. The existing golf cart is 14 years old and has reached the end of its life. The golf cart is used when treating large areas such as golf courses and large parks where several acres are being treated.
- \$30,000 to purchase 20 handheld ULV sprayers and 4 backpack sprayers. Each zone inspector's truck will be equipped with a hand held fogging device as part of the District's effort to enhance its mosquito control program. Inspectors will be able to fog individual backyards on an as needed basis when adult mosquitoes are found.
- \$39,100 for computer and other information technology related replacements and upgrades.

Facility Improvement Fund: Total Facility Improvements Fund capital outlay costs are proposed to be \$188,500 and include the following:

- \$166,000 to replace the roof at the Haster Business Park (HBP) building. Several troubled areas have been identified that have caused leaking. Repairs and patching have been attempted but problems continue to persist. A formal bid process and Board approval will be sought prior to the work being performed.
- \$8,500 to reseal the District parking lot.
- \$14,000 to purchase and install evaporative coolers in the Special Services and Red Imported Fire Ant offices located in the HBP.

Other Funds: Other funds operating expenditures are proposed to be \$3,428,000 for FY 2015-16.

- Emergency Vector Control Fund The District has been exploring all mosquito control options that could be employed to combat possible future epidemics. One method to knock down mosquitoes in the environment during a potentially severe WNV year that is used by many other vector control agencies throughout the country is aerial application services. Total cost is dependent on the number of acres requiring treatment and the number of treatments necessary to curb infection rates. The minimum number of acreage is 20,000 acres which would cost approximately \$120,000 for two back to back (two nights in a row) treatments. Depending on the severity of a WNV outbreak, additional acres may need to be treated and more frequently. Staff has estimated that upwards of 100,000 acres may be necessary in a very severe WNV year such as what the County experienced in 2014. In this scenario the cost could rise up to \$500,000 for two back to back treatments. Additional treatments may be necessary should the initial two treatments do not knock down the number of infected mosquitoes adequately to lessen the risk of additional human infections. The FY 2015-16 budget does not include a line item expenditure for aerial application services since it is unknown if the District will have to use this tool or the extent of which it would need to be used. Additional funds are being transferred from the Operating Fund to the Emergency Vector Control Fund in the amount of \$250,000 to bring the fund to approximately \$1.1 million to ensure that there is adequate funding is available should aerial application be necessary.
- Facilities Improvement Fund: Expenditures total \$258,000 for FY 2015-16, an increase of \$120,576 from FY 2014-15. This is primarily due to a needed roof replacement for the Haster Business Park property.
- Habitat Remediation Fund: Expenditures are proposed to be \$7,500 in FY 2015-16 for water quality testing and minor maintenance cost for the siphon remediation project at the Big Canyon area of the Upper Newport Bay.
- Environmental Fund: As the District continues to explore aerial application of material for adult mosquito control, an addendum to the CEQA may be necessary. The estimated cost for the project is \$25,000.
- Retiree Medical Insurance: Expenditures are expected to decrease in FY 2015-16 by \$18,000. The most recent GASB 43 & 45 actuarial valuation of the District's retiree health insurance program as of July 1, 2012 reported retiree medical costs were fully funded. As a result, it was recommended that the District suspend contributions toward the fund and begin receiving reimbursement from the Retiree Medical Trust for all District funded costs incurred until the next valuation. The next scheduled valuation per GASB 43 & 45 will take place during FY 2015-16.
- Retirement Contingency Fund: As of January 2007, the District switched its defined benefit pension plan from OCERS to the California Public Employees Retirement System (CalPERS). Per the Termination and Continuing Contribution Agreement between OCERS and the District, commencing December 31, 2010 and every three years thereafter OCERS recalculates

the District's Unfunded Actuarial Accrued Liability (UAAL) obligation, based on accumulated assets and liabilities attributable to the District.

Every calendar year following December 31, 2008, OCERS has provided a report which outlines the assets and liabilities of the retirement system attributable to the District and any UAAL attributable to the District. The most recent report received from Segal Consulting, OCERS consulting actuary, reported that the District's withdrawal liability as of December 31, 2013 was \$2,676,850. Although the interim calculations do not trigger the contractually required payment, the District has made pre-payments in anticipation of the scheduled triennial recalculation of its UAAL. In FY 2012-13 and FY 2013-14, pre-payments in the amount of \$500,000 each year were made to OCERS.

OCERS will begin the required triennial experience study in FY 2015-16. The study will include calendar years 2012, 2013, and 2014. The District must satisfy the obligation to OCERS in full within three (3) years following the effective date of the recalculation. At the end of FY 14-15, the Retirement Contingency fund balance is estimated to be \$1,049,000. The FY 2015-16 budget includes a transfer of \$2,000,000 from the Operating Fund to the Retirement Contingency Fund in anticipation of the upcoming UAAL true up payment.

Fund Balance:

In June 2011, the Board of Trustees adopted Resolution No. 361 establishing fund balance commitments for Vehicle Replacement, Liability Reserve, Equipment Replacement, Emergency Vector Control, Facility Improvement, Habitat Remediation, Environmental, Retiree Medical Insurance, and Retirement Contingency per Governmental Accounting Standards Board (GASB) Statement No. 54. These committed fund accounts are used to maintain control over resources that have been segregated for specific activities or objectives.

The following are the estimated FY 2014-15 and projected FY 2015-16 fund balances:

| | Estimated FY 2014-15 | Projected FY 2015-16 | | |
|-------------------------------|----------------------|-------------------------|--|--|
| Committed Fund Balance | | | | |
| Vehicle Replacement | \$ 618,955 | \$ 480,655 | | |
| Liability Reserve | 405,561 | 456,661 | | |
| Equipment Replacement | 357,438 | 363,338 | | |
| Emergency Vector Control | 889,622 | 1,142,322 | | |
| Facilities Improvement | 1,004,692 | 1,059,192 | | |
| Habitat Remediation | 187,796 | 180,296 | | |
| Environmental | 7,397 | 2,397 | | |
| Retiree Medical Insurance | 250,148 | 150,648 | | |
| Retirement Contingency | 1,049,711 | 49,711 | | |
| Total Committed Fund Balance: | 4,771,320 | 3,885,220 | | |

| | Estimated FY 2014-15 | Projected FY 2015-16 |
|---|----------------------|-------------------------|
| Operating Fund Balance (Unassigned) | 6,676,277 | 5,583,697 |
| Total Committed and Unassigned Fund Balance | \$ 11,447,597 | \$ 9,468,917 |

Additional Considerations:

As stated earlier, revenues to support programs and services in the proposed FY 2015-16 assume an increase in Assessment District No. 2 from \$5.02 to \$6.02 per SFE. The maximum allowable rate for FY 2015-16 will be \$6.89 per SFE. The District has never asked for an increase for Assessment District No. 2 and has always stayed well below the maximum allowable rate. An increase should only be imposed should it become absolutely necessary to assure exceptional service and protection of the public against vectors and vector-borne diseases. Should the Board of Trustees vote to establish the levy at a lower rate for FY 2015-16 than the proposed rate of \$6.02 per SFE, staff will need to re-examine proposed expenditures and bring a modified budget back to the Board of Trustees.

Conclusion

In conclusion, the proposed FY 2015-16 budget includes several program enhancements that will ultimately improve the Districts ability to protect citizens of Orange County from vectors and vector-borne diseases. All District staff have recommitted themselves and are more dedicated than ever to seeing that the District achieves its mission to the highest degree possible. Many lessons were learned during the epidemic 2014 WNV outbreak and it is the District's goal to ensure that staff use these lessons and continue to efficiently and effectively deliver superior service to the residents of Orange County.

MH/ss

Department Overview

The Orange County Mosquito and Vector Control District is a special district organized in 1947. The District is governed by a 35 member Board of Trustees representing the 34 cities of Orange County and the County at Large. The Board of Trustees is the legislative body of the District and is responsible for the policies of the District and general oversight of the District's operations and performance. The Board of Trustees has five standing committees: Executive; Policy and Personnel; Budget and Finance; Building, Property and Equipment; and Operations.

The District Manager is appointed by the Board of Trustees and serves at its pleasure. The District Manager is the Chief Executive Officer of the District. The District Manager appoints all Department Heads and is responsible for overseeing the daily operations of the District. The District Manager is assisted by an Executive Assistant/Clerk of the Board. The Executive Assistant/Clerk of the Board is responsible for the preparation of the agenda for the Trustee Board meetings and the maintaining of all official District documents and records. In addition, the Executive Assistant/Clerk of the Board provides general clerical support to the Board and District Manager.

The District Counsel advises the Board of Trustees on all matters of law in the conduct of District affairs. District Counsel prepares resolutions and contracts for consideration by the Board of Trustees. In addition, District Counsel reviews all legal documents and represents the District in matters involving litigation.

Department: Administrative Services

Departmental Programs

Administrative Services

Insurance

Department Overview

The Administrative Services Division provides various support functions for the District. Administrative Services is responsible for Finance and Budget, Human Resources, Risk Management (Insurance) and Payroll. Financial responsibilities include developing and monitoring the annual budget; preparing monthly financial statements, accounts payables and receivables; administering petty cash; deferred compensation programs; managing fixed assets inventories; and ensuring compliance with Government accounting requirement and standards.

Human Resources coordinates the recruitment and hiring of District staff; administers employee benefits; coordinates employee relations and unemployment issues; maintains employee files; processes District vehicle incident claims; and administers the District's Personnel and Salary Resolution.

Insurance activities involve processing, resolving, and settling claims against the District, as well as claims the District has against others. The District is a member of a self-insurance pool (Vector Control Joint Powers Agency) made up of approximately 40 other California vector control districts. This organization helps administer and manage employment, workers compensation, liability, collision, property, and other claims against the District.

Department: Scientific Technical Services

Departmental Programs

Scientific Technical Services

Department Overview

The Department of Scientific Technical Services conducts routine surveillance for several mosquito-borne diseases (West Nile virus, St. Louis encephalitis, and Western Equine encephalomyelitis), rodent-borne diseases (hantavirus and bubonic plague), tick-borne diseases (Lyme Borreliosis and Rocky Mountain spotted fever), and small mammal-reservoired diseases (murine and flea-borne typhus) throughout Orange County. The Department's environmental biologists develop vector minimization guidelines for other governmental regulatory agencies, make assessments of potential vector-producing sites as the result of residential development projects, monitor Best Management Practice (BMP) wetland usage, and oversees mosquito fish production and distribution. Additionally, Scientific Technical Services personnel proactively investigate remerging and emerging public health threats, such as Chagas' disease, Pacific Coast Tick Fever, and the introduction of new pests (brown widow spider, bark scorpion, and invasive Aedes mosquito species). Staff members also provide technical assistance to the Operations Department, specimen identification services, and advice for the public on pests and vector-borne diseases.

Departmental Programs

Field Operations

Vehicle Maintenance

Building Maintenance

Department Overview

The Operations Department is organized into three divisions:

<u>Field Operations</u> - This division's primary responsibility is to control mosquitoes, rats, red imported fire ants, and flies. Inspectors safely, efficiently, and effectively use biorational materials to protect the public from vector-borne disease and discomfort.

<u>Vehicle Maintenance</u> - The Vehicle Maintenance Division is responsible for scheduled maintenance, repair, and replacement of District vehicles, and the fabrication of equipment used on District vehicles.

Building Maintenance - This division is responsible for the maintenance and repair of District facilities.

Departmental Programs

Public Outreach Information Technology Public Service

Department Overview

The Communications Department is organized into three divisions:

<u>Public Outreach</u> - The role of this division is education; staff works to engage the residents of Orange County in the shared responsibility of vector control. The Outreach staff also builds awareness of the District and its responsibilities. Public Outreach staff is responsible for education is required of all certified staff. This division is also responsible for building and maintaining strongeducation of not only the public, but District staff as well. Regular continuing relationships with elected officials at all levels of government.

<u>Information Technology</u> - The Information Technology Division is responsible for incorporating the effective use of current technology. The division is also responsible for training staff to use this technology to provide the highest level of service to the public.

<u>Public Service</u> - This division is often the first and sometimes the only contact the public has with the Orange County Mosquito and Vector Control District. The Public Service Division strives to make a positive first impression and has helped retain the respect of the District has continually earned since 1947.

RESOLUTION NO. 404

A RESOLUTION OF THE BOARD OF TRUSTEES OF THE ORANGE COUNTY MOSQUITO AND VECTOR CONTROL DISTRICT

ADOPTING THE ANNUAL OPERATING BUDGET FOR FISCAL YEAR 2015-16

WHEREAS, the District Manager has prepared and submitted a proposed annual operating budget for Fiscal Year 2015-16; and,

WHEREAS, the Board of Trustees has reviewed the proposed budget in detail.

NOW, THEREFORE, the Board of Trustees of the Orange County Mosquito and Vector Control District does hereby RESOLVE as follows:

SECTION 1. That the Board of Trustees of the Orange County Mosquito and Vector Control District does hereby approve and adopt the Fiscal Year 2015-16 Budget in the amount of \$10,757,080 in appropriations.

PASSED, APPROVED, and ADOPTED by the Board of Trustees of the Orange County Mosquito and Vector Control District at its regular meeting thereof held on the 16th day of April 2015, at 13001 Garden Grove Blvd., Garden Grove, California, 92843.

APPROVED AS TO FORM:

Alan R. Burns, District Counsel

Dr. Allan Bernstein, Secretary

Joe Carchio President
